Excel is used to create forms and solve business accounting problems. The students complete a textbook on business math to reinforce basic math concepts and Excel formulas. Upon completion of the course students should be familiar with basic accounting principles, Excel formulas, create forms using Excel and have an employable speed and accuracy on the ten-key.

Job Search:

This training service gives students real-life exposure and job experience using the new skills they have developed. Our practicums may be paid positions leading to full-time employment. Office Careers has used our Job Preparation Service to bridge the gap to having demonstrable skills to an employer. This

Laptops Provided by Office Careers:

Setup and Internet Access

Essential equipment to attend classes remotely or onsite is included in the cost of all training plans. When a student uses a laptop from their home, they will need to sign an ownership agreement. Students may not use their own computers for classes unless they sign a terms agreement with Office Careers that releases us from any damages or loss of data.

Laptops provided by Office Careers are pre-configured for on-line communication and remote access. We setup our laptops for students with no prior computer experience. We have backups and safety built in so that we can repair a computer without a home visit and limit the loss of class days due to any technical issues.

Computers supplied by Office Careers may include a secondary monitor (our modern-day paper stand), and a wireless keyboard/mouse to avoid using the laptops keyboard. We can provide ergonomic devices that are generally sold at office stores or easily configure for prescribed devices. If needed, Office Careers will arrange for Internet service that may include paying the student to keep internet service running in their home. Only in cases where a student will need Internet access via Satellite, may other fees be negotiated as an additional expense.

All other policies and holidays are posted at officecareers.org
